

RESPECTFUL SPACE

Everyone working and collaborating in RWCMD is entitled to do so in a safe space. A respectful space is a supportive environment free of bullying, discrimination and harassment of any kind.

+ As part of the RWCMD community, we will value our differences when collaborating, promoting creative challenge while retaining the utmost respect for each other.

+ We will be polite and treat one another with respect at all times.

+ If we are subjected to, or witness bullying, discrimination or harassment we will speak out knowing that our voices will be heard and we will be taken seriously.

+ We will actively promote a positive, optimistic and mutually supportive approach to work and study, celebrating the arts and creativity.

Together we will create a respectful space.
